ABOUT OUR COMPANY

Innovation is our hallmark, combining proprietary technology with flexible manufacturing to introduce the latest out-of-the-box items with proven in-market results.

Frank and Sam Tedesco are fourth generation farmers with a true “farm to fork” mentality, having spent their entire lives in agriculture and fresh manufacturing. They understand that fresh, quality products start from the time a seed is planted in the field and must maintain that same quality when the consumer takes that last bite.

Supported by a talented team of creative thinkers and doers, we strive to provide our partners with fresh & convenient items designed to fit their needs and exceed expectations.

Sunnyside Farms is known as a leader in the industry for creative capabilities & quality products with a cutting-edge approach.

Opportunities are limitless with Sunnyside Farms.

Green Salads

Our offerings come in varying footprints and sizes with on-trend flavor profiles and premium ingredients. We specialize in innovative packaging to maximize shelf life, minimizing shrink for your store and delivering the same eating experience to the consumer on the final day of code as the first. Our culinary team creates new and seasonal salad varieties to meet the ever-changing consumer needs.
